I love Costanzo's Physiology. I used it for organ systems before I did each Zanki Phys deck. I also used the BRS phys as an outline and jotted notes in there from the big book so I could easily review later for Step. If you're using this as a tool to learn the system for the first time, I would say actually read the big book.

~~Linda S Costanzo Physiology pdf: Read Medical Books~~
Costanzo's Physiology This book falls in the category of extensive review book. It is more detailed than a review book but less comprehensive than a full textbook. Interestingly, this book is the work of Linda Costanzo, which is also the author of the only review book to make this list, the BRS physiology review.

I haven't read all of it, but it has really helped clear up CV, Pulm, Renal, and Acid-base physiology. It does the job. Not overly complicated, a bit redundant, but if you're not up for/don't have time for the GH, "Big Costanzo" is a winner.
